

AABA Membership Chair Report
March 15, 2023
Prepared by Stephanie Meredith

I. Membership Trends 2013-2023: Membership numbers and % yearly change presented in the table below reflect end-of-year totals, except for 2023. At the time of the 2022 AABA Member Report (3-23-2022), there were a total of 1,448 members. This year’s membership count (as of 3-15-2023) is shy of last year’s pre-meeting numbers by 73, indicating a decrease of 5% compared to a similar time last year. It is customary to report this metric. However, since 2017, the difference in total memberships from the time of the pre-meeting data presentation to the end of the year has ranged from 80 (in 2020) to 574 (in 2018), and year-to-year differences in pre-meeting membership numbers are more variable than year-to-year differences in end-of year membership numbers. Therefore, it is unclear whether a 5% decline in pre-meeting membership numbers has any predictive value with respect to total membership trends. Regardless, our low membership totals may justify more active outreach attempts aimed at building back our membership.

II. Membership demographics 2022: I would like to be able to report on membership demographics as the association has an interest in understanding demographic changes in its membership through time. However, we do not possess these data for a large proportion of our membership. Changes to the membership renewal process to facilitate gathering these data upon membership renewal may be warranted.

TGNB = Transgender/Non-binary

III. Membership applicants 2022-2023: Between March 20, 2022 and March 15, 2023, a total of 335 people newly applied for AABA Membership and were provisionally approved as new members. (New membership applications prior to the 2022 meetings numbered 337.) Of student applications, 67% were from graduate students and 33% were from undergraduates. All new applications require approval by the membership.

| Membership category | # | % of new memberships |
|---|------------|-----------------------------|
| Regular/Postdoc/Contingent (voting members) | 72 | 21.5% |
| Special | 12 | 3.5% |
| Student | 251 | 75% |
| TOTAL NEW MEMBERS | 335 | |

Seventy-eight applications from existing members were provisionally approved to transition to new membership categories. Some of these transitions do not require a membership vote unless the applicants' membership has lapsed for 5 years or more. The names of members whose membership changes do not require membership approval are excluded from the list of names to be voted on.

| Previous member category | New member category | # |
|---------------------------------|----------------------------|----------|
| Postdoc/Contingent | Regular | 15 |
| Regular | Retired | 10 |
| Regular | Postdoc/Contingent | 3 |
| Special | Regular | 2 |
| Student | Postdoc/Contingent | 22 |
| Student | Regular | 18 |
| Student | Special | 4 |
| Special | Student | 3 |
| Special | Postdoc/Contingent | 1 |

New and change applications continue to come in. Names of applicants who have been provisionally approved but require membership approval have been added to the list of names to be voted on at the annual business meeting up (below) until 4/14/2023, but their applications are not reflected in the summaries that have been presented above. Names of applicants who are provisionally approved after 4/14/2023 but require membership approval will be included in the membership report for 2024.
