

**AAPA Membership Chair Report**  
**Submitted by Lisa Sattenspiel, 3/25/17**

**1. Membership Numbers/Trends.** Membership over the last several years is as follows:

2011	2012	2013	2014	2015	2016	2017 (as of 3/21/17)
1615	1636	1457	1563	1950	2271	1695

Last year at the time of our annual meeting we had 1841 members. The total membership number at the present time (i.e., for the 2017 calendar year) is 1695, and may well match the count from last year by the time of the meeting. Thus, our membership is continuing to recover from the dip observed in 2013.

Our dealings with the new management company (BAI) continue to run smoothly and are responsible in part for the continued increase in our membership. BAI is helping us do a better job of keeping track of all members and making sure they are renewing, and with their help we have successfully implemented the new Postdoc membership category.

**2. Retiree category.** Due to increasing costs per member, last year the Executive Committee increased the membership fee for retired members to \$65 per year. This was done because the cost to the AAPA is about \$100 per member, so in order to reduce our losses, the retiree rate was brought in line with the rate for student membership. Because of a failure to adequately communicate this change, it was not implemented effectively for 2017 renewals. However, beginning with renewals for 2018, the increase in the retiree rate will be put in place for all retired members.

**3. Membership Applicants.** Between April 9, 2016 and March 19, 2017, a total of 479 people applied as new members and an additional 136 applied to transition membership categories. The new member applicants include 1 requesting life membership, 30 postdoc members, 93 regular members, 6 special members, 12 spouse members, and 337 student members. The transitions include Student (incl. developing country) to Regular (incl. life and developing country) (68), Student to Special (1), Special to Student (1), Special to Regular (1), Regular to Student (2), Regular or Student (incl. developing country) to PostDoc (42), and Student to Regular Spouse (1). An additional 18 members transitioned from Regular to Retired or Life Membership, 1 person transitioned from Retired to Regular, and 1 transitioned from Regular to Regular Developing Country; these individuals do not need to be voted on and have not been included in the list below.

As we observed last year, some new applicants had been approved previously for membership but had let their membership lapse for multiple years. The number of such applicants is relatively small, but if

non-payment extended more than two years, these individuals were treated as new member applicants and appear on our approval lists below.

Credentials for membership of new applicants for Regular and Special member categories were verified by researching the applicants online, reviewing CVs/qualifications, and/or soliciting reference letters. The approval process for new applicants for Student membership involved the additional step of confirming student status with an advisor or faculty member in their department.

The names of the new and transitioning applicants who applied between April 9, 2016 and March 19, 2017—all of whom have been preliminarily approved—are listed below by membership category. The first section represents new members and the second section has the names of members transitioning between categories (with the previous category listed after the name).

**4. Membership Category Changes.** Several membership category adjustments were discussed and implemented by the executive committee at its April 19 board meeting. A report of these changes is provided by the Membership Chair at tonight's meeting.

**New Applicants (479)**

**Life Membership (1)**

Fox, Molly
